

Date: 25 March 2019 Cross World Power Ltd.

NOTE FOR APPROVAL

Subject	Backup Support of PM20 from stock for Bhabanipur backup power support			
Background	We have applied for an electrical connection for Bhabanipur but as per team feedback it will take another 2-3 weeks. On the other hand, the temporary line connection does not have enough load to carry the work there. Since the vendor (Pulse) is working on a strict timeline, we need to provide them with backup power with which the water pump, vibration machine and others will operate.			
Pricing & Commercials	The cost of return from our site in Bhabanipur to our Tejgaon Warehouse will be approximately BD7 8,000.			
Recommendation	Management approval is required to approve the DO & proceed.
